Mingyu Kang

mingyu.kang@duke.edu ◇ mkangquantum.github.io

Education

Duke University - Ph.D. in Physics (Candidate) 2020 - 2025 (Expected)
Specialization: Quantum Optics & Information, GPA: 4.13 / 4.3

Stanford University - B.S. Physics 2014 - 2020
with Distinction and Departmental Honors, GPA: 4.02 / 4.3

Research Experience

Duke Quantum Center, Duke Univ. Aug. 2020 - Now
with *Prof. Kenneth R. Brown*

- Developed pulse-optimization methods for mitigating noise in trapped-ion systems, leading to experimentally demonstrated improvement in two-qubit-gate fidelities
- Devised a quantum error correction scheme that exploits the types of errors in trapped ions, which significantly improves the error-correction threshold
- Designed ion-trap experiments on analog quantum simulation of energy transfer in molecular systems

Laboratory for Integrated Nano-Quantum Systems, Stanford Univ. Jan. 2019 - June 2020
with *Prof. Amir Safavi-Naeini*

- Optimized drive pulses for generating high-fidelity Bell states on nanomechanical quantum memory coupled to superconducting qubit

Professional Experience

Intern, QuEra Computing Jun. 2024 - Sep. 2024

- Analyzed two-qubit-gate errors on neutral atoms using detailed atomic physics and system noise models

Intern, IonQ (virtual) Mar. 2021 - Sep. 2021

- Developed efficient protocols for accurately characterizing the system parameters of trapped ions

Sergeant & Signal Analyst, SEC Security Lab of ROK Army Sep. 2016 - June 2018

- Developed GUI tool for encoding/decoding/finding convolutional codes of various types

Awards & Grants

Seed Grant, NSF Quantum Leap Challenge Institute for Robust Quantum Simulation 2023 - 2024
Simulating Dissipative Electron Transfer with Trapped-Ion Systems
$100,000 research funding, collaboration w/ four other PhD students

John T. Chambers Fellowship, Duke Fitzpatrick Institute for Photonics 2020 - 2021
$10,000, One of four awardees in Duke University

Kwanjeong Scholarship, Kwanjeong Educational Foundation 2014 - 2016, 2018 - 2020
$55,000 / yr, One of seven undergraduate awardees in South Korea

Mary Creason Memorial Award, Duke Department of Physics Aug. 2021
Outstanding teaching in the introductory physics laboratories

Publications

Manuscripts

Undergraduate Thesis

· **MK**, *Optimal control of nanomechanical quantum memory coupled to superconducting qubit*, Stanford University (2020)

Oral Presentations

Invited Talks

· Pulse optimization for trapped-ion operations and applications to chemical dynamics simulations; **University of Sydney**, Sydney, Australia; Nov. 2023

· Trapped-ion quantum simulations for condensed-phase chemical dynamics: seeking a quantum advantage; **Stellenbosch University** (virtual); Oct. 2023

- Trapped-ion quantum simulations for condensed-phase chemical dynamics: seeking a quantum advantage; **Sungkyunkwan University (SKKU)**, Suwon-si, South Korea; Aug. 2023
- Seed Grant: Simulating Dissipative Electron Transfer with Trapped-Ion Systems; Robust Quatnum Simulation Institute Workshop; **University of Maryland**, College Park, MD, USA; June 2023
- Mitigating Experimental Imperfections with Frequency-Modulated Pulses for High-Fidelity Two-Qubit Gates in Ion Chains; AMO Physics Seminar; **University of California, Los Angeles**, Los Angeles, CA, USA; July 2022
- Mitigating Experimental Imperfections with Frequency-Modulated Pulses for High-Fidelity Two-Qubit Gates in Ion Chains; EPiQC Tech Talk; **University of Chicago** (virtual); Apr. 2022
- Designing Control Pulses for High-Fidelity & Robust Two-Qubit Gates in Trapped Ion Systems; **Sungkyunkwan University (SKKU)**, Suwon-si, South Korea; July 2021

Contributed Talks in International Conferences

- Quantum Error Correction with Metastable States of Trapped Ions using Erasure Conversion; **6th International Confernce on Quantum Error Correction**; Sydney, Australia; Nov. 2023
- Trapped-ion quantum simulations for condensed-phase chemical dynamics: seeking a quantum advantage; **Asian Quantum Information Science Conference 2023**; Seoul, South Korea; Aug. 2023
- Quantum Error Correction with Metastable States of Trapped Ions using Erasure Conversion; **APS March Meeting 2023**; Las Vegas, NV, USA; Mar. 2023
- Mitigating Experimental Imperfections with Frequency-Modulated Pulses for High-Fidelity Two-Qubit Gates in Ion Chains; **APS March Meeting 2022**; Chicago, IL, USA; Mar. 2022

Service

Organizing committee, Institute for Robust Quantum Simulation Oct. 2022 - Aug. 2024

- Organized topics, speakers, and time tables of two QSim Summer Schools (2023 & 2024)
- Invited quantum industry experts to Duke University for a career connection event

Journal referee

- *npj Quantum Information, Physical Review Applied, Physical Review Letters, Quantum*

Conference referee

- TQC 2024

Outreach Experience

Co-host, Youtube series *Quantum News Monthly* Sep. 2023 - Now

- Introduced selected papers published each month in the field of quantum physics and computing

Adminstrator, Facebook group *Quantum Computing KR* (South Korea) Apr. 2022 - Oct. 2022

- Posted introductory-level summary of a significant paper on quantum computing on a weekly basis

Translator, Sungkyunkwan University & IonQ Feb. 2021 - Jan. 2022

- Translated a technical talk on quantum computing by IonQ's expert for Korean students monthly

Teaching Experience

Teaching Assistant, Duke Univ. Aug. 2020 - May 2021
Physics 152L: *Introduction to Electromagnetism (Lab)* & Physics 142L: *General Physics II (Lab)*

Teaching Assistant, Stanford Univ. Sep. 2019 - Dec. 2019
Physics 61: *Mechanics and Special Relativity*
